Dr. Irvin Returns

Dr. R. A. Irvin has returned to Clay City and resumed his practice. The Times with all the other people of Clay City welcome the return of Dr. Irvin into our midst. While with the army in France, the doctor was promoted to the position of Major on account of his ability as a physician and we should be proud to have such a man with us, and better still to know he is our own county's product.

Clay City has always needed two doctors for indeed it is very hazardous to try to go the winter through with but one. With the two doctors we now have, Drs. Irvin and Martin, we can safely say no town has better ones if they may have more of them.

By Secret Ballot

The election of the Board of Education this year will be by secret ballot, at the November election. Names to be voted for must be printed on the regular ballots, and before names can be printed on the ballots a petition must be filed with the County Clerk requesting such names to be printed at least fifteen days before said election. The petition must bear at least fifty names, which names may be any voters in the county outside of the graded school districts of the county.

Machine Steering Causes Trouble

Allen Daniel, Friday morning while climbing the grade to the over pass in Mr. Phelps' Ford, encountered a locked steering gear which caused the machine to turn over the embankment. Mr. Daniel, when he saw he could not move the wheel, cut off the gasoline and applied the breaks. This caused the machine to do less damage. Nothing but the top and wind shield to the machine was seriously injured. Mr. Daniel escaped with but slight bruises.

First Frost of Fall

A good sized frost visited us Friday morning and a smaller one was with us Saturday morning. In most places the injury to plants was very light, the sweet potatoes not even being bitten. The frost this year is thirty days earlier than last year. The cool days were followed by much warmer weather the first of the week.

E. A. Faulkner First to Respond

Mr. E. A. Faulkner, one of Powell's sterling Democrats, is the first to respond to Democratic call for funds. He sent check to us for \$5.00 which we in turn have sent to John R. Dowing, Citizens National Bank Building, Louisville, who is treasurer of the state campaign fund.

Notice to Claimants

All persons having claims against the estate of T. J. Kirk, deceased, are requested to file same with me properly verified within thirty days or same will be barred. Persons indebted to said estate are requested to call and settle same at once.

P. B. Kirk, Administrator.

Old Kentuckian Visits Us

John Shearer, of Crawfordsville, Ind., spent two weeks with his brother, M. F. Shearer, and other relatives of this city. This is the first time in sixteen years Mr. Shearer has visited Kentucky, and found only two of his old friends whom he used to know years ago. He says he found everything changed and looking different around Clay City, and also says Indiana is a grand old place. He expects some day to come back to his old native state—Kentucky—to live. Mr. Shearer left Thursday for Winchester where he will stay a few days with his sister, Mrs. Harry Curry, and from there on home.

No More Projects

Jas. T. Voshell, Federal Division Engineer, of Chicago, recently paid a visit to the department of Roads at Frankfort and said there was no need this time in making additional road surveys, since the roads already approved in Kentucky would cost forty million dollars, and that these must be completed before others will be undertaken. There are one thousand five hundred miles already approved and will be constructed soon as possible. The road through this county is one of the favored projects, and the road through Clark and Montgomery is an other.

Automobile Turns Turtle

The Buick touring car of Howard Townsend turned over into the cut off Saturday night, Oct. 2nd when, the headlights gave out. There were four occupants in the machine but all fortunately escaped injury. The top of the machine was completely demolished.

Box Supper Success

The box supper at the school house Saturday night netted twenty-five dollars and five cents. This money will be spent for fuel for the school. This method of raising funds is very commendable for our good ladies especially when the money is to be spent for a prime necessity.

Gets Two More Fords

Joe Mountz and Joel Mountz went to Cincinnati Monday and returned Tuesday with two more new Fords. Mr. Mountz seems to be having quite a run on Fords since their decline in price.

Card of Thanks

To those who so graciously and tenderly aided in the care of our dear father, T. J. Kirk, in his last hours and death, we wish to extend our sincerest thanks.
The Family.

The Largest Apple

Mr. Edward Rose brought to this office the largest apple we have seen this season. He was a big yellow fellow, weighing one pound and seven ounces.

Fiscal Court Meets

The Powell Fiscal Court held its regular October term Tuesday and allowed claims amounting to \$2,311.16. This includes road claims and all.

Judge Samuel M. Wilson, of Lexington, will speak at the Court House at Stanton at one o'clock Saturday, Oct. 16. A full house is urged to come out.

Bank Gets New Safe

The Clay City National Bank this week received a new Mosler safe weighing eight thousand pounds. The steel is so thick and tough that should burglars gain access to the safe and allowed to ply their game uninterruptedly until a hole could be drilled into the cash, it would take them two weeks. It is therefore a burglarproof safe, and is of course, fire proof. The Clay City National can always be depended upon to provide the best of everything for the safety of their customers.

Birthday Party

Miss Ouida Mountz entertained at her home at Waltersville Wednesday evening, the 13th, in honor of her twentieth birthday about eighty-five of her young friends. A most delightful time was spent by all who attended.

The home was very beautifully decorated with many kinds of flowers.

Near Accident

The steering in a traveling man's Ford car suddenly went bad Friday as he was crossing the bridge over the canal at the bank, which would probably have caused a wreck had not the road been smooth and level. His machine was quickly repaired by one of our garages and he went on his way.

Notice

All tax payers who have not given in their list will please call at my office for this purpose before Nov. 1st. The law requires that this be done by the tax payer so come in and save us both unnecessary trouble.

W. C. Rose, Tax Commissioner.

Safety First

In selecting a machine nothing is so important as to get one that embraces every feature of SAFETY possible.

We often run much faster than we think if our machine has no speedometer on it, then something happens, a top is smashed or, worse probably, some one is hurt. See that your machine has a speedometer on it when making a selection.

Many machines are very top heavy and are quite easily toppled over. Look for a machine which hangs close to the axle if you wish to get one of security from turning over.

The Chevrolet is equipped with speedometer which provides you for driving just fast enough to get you there in due time and prevents you from driving so fast that you will run a wheel off, or turn over and probably break your neck. This machine is also so close to the ground that you can run thirty miles an hour and feel no vibration nor be liable to turn over if you happen to get too near the ditch on one side.

Take our advice when looking to the purchase of an auto, look for Safety First and incidentally, if you want the machine that gets you there on far less gasoline get the Chevrolet.

Mr. and Mrs. Martin Ford visited Mr. and Mrs. J. P. Owens, of Lexington, Monday.

Mr. and Mrs. J. C. Ewen returned home to Fenwick after several days visit with relatives here.

Bob Stone has added very much to the good looks of the dwelling of Mr. Jim Proffitt, by giving it a new coat of paint.

We have three stores in Slade, or three groceries. Much to our delight, we can trade where our money buys most goods.

Mrs. Susan Ewen and Mrs. Minnie Faulkner went to Clay City Saturday to get some dental work done. Dr. Nickell is giving satisfaction and expects to come to Nada in the near future. Those wanting dental work done should consult him.

Dora, wife of Grover Ashley, was buried at Nada Saturday afternoon. Mrs. Ashley is survived by her husband and three small children, a father, John Wilburn, and several brothers and sisters. We extend to them our deepest sympathy. Mrs. Ashley had lived at Slade, was a good woman, and has many friends here who are grieved to learn of her death.

We are grieved to know so many of our good women expect to exercise their rights at the polls next election. Yet there are some saying they will not vote because their husband's political views are different, and

some husbands say the polls are not a suitable place for good women, owing to so many vile characters and the colored women swarming there. But listen, do we intend for such characters to run our government? No, we said we would make better laws and we intend to do it. We live in the same world with this class of people, we ride the same trains, we sit in same pews (not with colored people) but if we do not awaken to our duty to our country we will wake up in same cars, same schools, churches etc. as some of our other states. So let our Kentucky mothers and fathers study this problem. We have had a lesson the last year not so easily forgotten. Don't vote a certain way just because some one told you to. It takes both parties to run our government, and then we get behind. There are good and bad on both sides. Don't vote a certain way because father or grand father did, study these things and vote for the one that is nearest suited. We have a secret ballot and a free right to use it. We want to do all in our power to make our country better and a safer place for ourselves and our posterity.

Supt. Miss Maude Bowen visited our school last Thursday and the children and we think the teachers enjoyed her visit and talk. Some of the children invite her to visit this school once a week. We are glad to say our school is progressing nicely in both rooms, both young men are giving satisfaction and we hope to see Kentucky come to the top in education in the near future. There is so much to learn and we know so little. Thos. A. Edison the other day in an interview said that we don't know one millionth of one per cent of anything. Why we don't even know what water is, we don't know what light is, we don't know what gravitation is, we don't know what enables us to keep on our feet, to stand up, we don't know what electricity or heat is, we don't know anything about magnetism. "In fact we know but little more about life and the living than we do about the dead and hereafter and is so much to learn and so much time wasted in one of the Devil's very best baits, idleness. It is enough to bring one to tears to listen to the gossip through the country, often trying to down some one's character, and worse than a thief are such persons. God wants us to build higher, help the weak, to carry one another's burdens, but we almost reverse his demands.

"I suffered for a long time with womanly weakness," says Mrs. J. R. Simpson, of 57 Spruce St., Asheville, N. C. "I finally got to the place where it was an effort for me to go. Why Put it Off?

Delay in securing something you know you need, is as costly as having something stolen from your home.

You know that some day, you are going to furnish your home and place with electrical equipment.

And if you can be satisfied, that the best is now obtainable, why put it off?

Ten Years Record

That's what we want to do—satisfy you.

And if we can't satisfy you, you don't have to buy, in fact we know you have better sense than to buy unless satisfied.

Ten years successful experience in the homes of owners everywhere, is a record that is worthy your careful consideration.

That's what is back of the New Lalley Light.

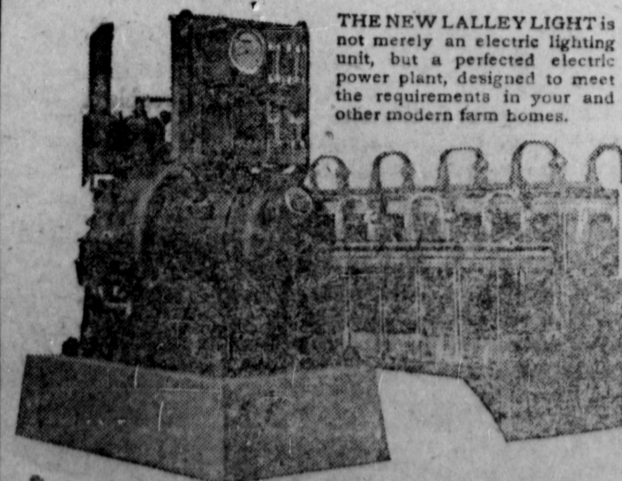

You can have bright, brilliant, ample, safe, clean electric light in every room, in the yard, barn, out-buildings; and you can do the washing, ironing, churning, separating, watering stock, the bathing, dish-washing all quicker, easier and cheaper with the New Lalley Light.

But—all we ask is that you investigate the New Lalley Light for yourself.

Your natural prudence—your own good common sense will tell you that you must see the New Lalley Light before you buy.

We welcome you to visit our showroom. Write us for literature on the New Lalley Light.

School News

The attendance officer seems to be accomplishing a great deal in increasing the attendance of schools. Mr. Tracy had seventy present; Messrs. Wells and Smith fifty-nine; Mrs. Robert Sturdivant forty-nine, and Miss Mabel Faulkner eleven, when visited by the Superintendent.

The patrons of Slade-Nada school are delighted with their present teachers. This is fine, because, when the patrons are dissatisfied it makes it difficult for the teachers to do their best work.

Owing to the hearty co-operation of the parents at Argyle, the Teachers' Association was a decided success. It seems everyone enjoyed it very much. Miss Beatrice Blount, the highly efficient teacher, is to be congratulated for the fine community spirit, which was evidenced by the presence of the patrons, who not only contributed to our enjoyment by helping out with the program but also by a bountiful dinner.

The next Association will be at Bowen, October 22nd. Everyone who is interested in education is invited to attend.

Mr. Tracy, who is the oldest teacher in our county, will be sure to have something especially interesting when all the teachers come to his district.

VAUGHN'S MILL.

"Lasses" time has arrived here at last, oh how "schwreet!"

Mrs. Jeff McKinney has been very sick, but is slowly improving.

Mrs. Ann Barnett is here from Clark county to visit her daughter, Mrs. H. C. King.

Pete Wells was in Winchester Monday to receive treatment from his physician, Dr. Riggs.

Our photographer, Mr. Chas. West, recently toured the oil field with his camera.

Miss Edna Baker and Wm. Shimfessel, the typhoid patients, are reported to be on the mend.

Uncle Jas. F. Clark, of Masonic Home at Shelbyville, is here spending a few days with his brother, G. W. Clark.

Mr. and Mrs. Sidney Easter spent Saturday and Sunday here with Mrs. H. M. Curtis and other relatives, prior to their departure for the oil field.

S. A. Easter, formerly of this place, but recently of Clay City, moved Monday with his family to the Russell oil lease. Mr. Easter holds a responsible position with Superior Oil Company.

Some thief entered the home of B. F. Curtis one day last week, taking from there a hand grist mill and a few other minor items. As usual, with the approach of winter comes the prowlers. Every precaution should be used at once to break up their practice game.

It will be of much interest to the many friends of Rev. Corbett J. Davis to mention that he has returned to his old profession, teaching, after a very successful career in the real estate business at Portland, Ore. He is at present professor of a Graded and High school in Grant county, Washington.

The Genet correspondent does not undoubtedly know what he is talking about when he stated the people would not know a League of Nations coming down Hatton Creek, or any other mountain, why! why! Down here on

Sim Allen and Oscar Means, Sunday School workers of Cat Creek, attended Sunday School here Sunday.

M. B. Benningfield and B. J. Rogers visited the former's daughter, Mrs. C. C. Daniel, on Hardwick's Creek Sunday.

Mr. and Mrs. O. L. Daniel and little son, Russell, of Vaughn's Mill, visited Mrs. Daniel's father here Sunday afternoon.

Mr. and Mrs. Jas. F. Martin and son, Virgil, and Miss Zula Martin visited Mr. and Mrs. Gother Martin on Cat Creek Saturday.

Mrs. Cora Norton and little daughter, Venice Happy, visited Mrs. Norton's parents, Mr. and Mrs. Jas. L. Martin, over Sunday.

Mrs. Hattie Martin has resigned as post master. Rupert Derickson has taken her place and it is now located in T. C. Hall & Company's store.

Mr. and Mrs. Topher Daniel, of Vaughn's Mill, visited the latter's parents here Sunday and a few days first of the week. Her sister, Miss Benningfield, returned home with them for a visit.

Mrs. Georgan Daniel, of near Filson, gave a dinner September 29th, in honor of her brother, John Morton, and cousin, Mabel Faulkner, it being Miss Faulkner's twentieth birthday and Mr. Morton's thirtieth. Among those present were: Mr. and Mrs. R. M. Morton, Miss Alice Daniel and Mrs. Anna Fulk, of Stanton, and others we did not learn. A bountiful luncheon was served and all report a nice time.

Last Friday morning, October 1, we listened to hear the well known "honk" of the wild geese and did hear a "honk," but it wasn't the wild geese, just as "natty."

The ground hog went to his subterranean chamber the 5th. At the entrance he stopped, looked back and sang:

"I went down to that little farm, I packed away a rotten ear under my arm.

"I sat down in the shade of a tree, Shoo Banister Martin, don't you bother me."

We often hear the question asked "when will we have good roads all over the country." While we have not been asked to answer the question, nor are we an expert at prognosticating, but will say for the benefit of "Uncle Remus" that when Gabriel steps to wall and takes down a crooked instrument that groaned on the pate of a bovine and goes to the door and fetches a blast through the aforesaid instrument that splits the cool morning breeze. Then, and not until then, will the more "favored" parts of the country have good roads. The rest of the country will have to put up with "rabbit run-a ways" and hog paths that you couldn't drive a one-eyed goose over with a yarn string tied around its neck.

GASOLINE

Good and Bad.

Bad Gasoline causes more trouble than most people think. It causes carburetor trouble, it causes carbon trouble, it causes loss of power and various motor troubles. Bad Gasoline in a machine indirectly causes divers troubles, which bring on big repair bills unnecessarily.

A very foul odor is a sure symptom of bad Gasoline. Water in Gasoline is a common thing this season with most brands of Gasoline. But not so with the

Gulf Gasoline

which we handle. It is as clear and white as spring water flowing freely from the Powell County hills. It is free from coal oil, and the price is no higher than the other brands. In fact it is the GOOD GULF that holds down the price to 32 cents per gallon. We Guarantee it.

Supreme Auto Oil

is all that its name implies. There is no better oil sold any where and it is this oil that holds down the price of automobile lubrication. We sell it for but 75 cents per gallon and guarantee none better.

Call for and insist on having Gulf Gasoline and Supreme Auto Oil sold in Clay City by

Clay City Motors Co.

Our Gasoline is plainly measured in your sight, not graduated by turns which number may be forgotten or the strokes fail to get you the number of gallons you pay for.

Results of The Fair

The School Fair held at Spout Spring 2nd inst. was quite a success. About 600 persons were present and all had an enjoyable time. Plenty of dinner was served on the ground. Abundance of agricultural products were on exhibition and the farmers were much delighted.

You should have seen the hand work of the women and girls. My, but the canned goods were excellent.

Several head of live stock were exhibited. Racing, climbing the greased pole and catching the greased pig were great features of the day. We cannot give to much praise to all who so earnestly took part in the work.

We thank the judges, Prof. Knox, of Stanton, Rev. M. C. VanCleve and Mrs. Maud McKinney, of this place, for their fair decisions in judging the exhibits.

BLOOD IS FUEL TO THE BODY

Pumped Through the System by the Heart it Sustains the Muscles and Tissues

PEPTO-MANGAN HELPS BLOOD

Keep the Quality of Your Blood at its Best—it Means Vigorous Health and Ability to Accomplish

Blood acts like a fuel. Pumped through the body by the heart, it sustains the muscles and tissues. It renews them. It feeds the brain—the tissues of the eye and face. This is why people look so pale and lifeless when blood is impoverished. The body tissues are being supplied with weak fuel. The blood has not enough red corpuscles. You would not eat poor food with no nourishment in it; no more should you let the fuel that supplies sustenance to your entire body be inferior. Have good blood. Improve the quality and keep it at its best.

If you look pale and feel weak, if you have lost your enthusiasm and energy, if your blood is clogged with poison, your system is being fed with a poor grade of blood. This is no way to go around. If you are not at your best, get at the source of the trouble right away. Put an end to half-living. Take that ideal tonic, Pepto-Mangan, to tone up your blood and purify it. Get the full enjoyment out of living. Breathe fresh air, take exercise.

Be sure to ask for "Gude's Pepto-Mangan." It comes in convenient tablet form and in liquid. One has the same medicinal value as the other. There is only one genuine Pepto-Mangan, and the name "Gude's" is on the package. Advertisement.

SPOUT SPRING

(Last week.)

Miss Mildred Welch, of Hardwick's Creek, spent Saturday and Sunday with her aunt, Mrs. Shelt McKinney.

Mr. and Mrs. Stone, of Iron Mound, spent Saturday night and Sunday with Mr. and Mrs. Franklin Margison.

There were two good services at Salem church Sunday with dinner on the ground. Good crowds were present for each meeting.

Miss Dora Margison, of Callo-way's Creek returned to her home Tuesday after several days' stay with her brother, Professor Franklin Margison.
